Onelife Exam has been founded and established in year 2006. The founder, has worked for paramedical and billing companies, and realizes the importance of having a company that will understand the needs of Life Insurance Companies in their underwriting requirements in processing their applicants insurance policy which requires Paramedical Examination. It requires professional care and management; to ensure accuracy, timely and faster results, reliability, dependability and good quality of service.

Our clients benefit from our enhanced knowledge and commendable performance in obtaining paramedical examination, through our operational and strategic practices. We are very much aware about the road blocks and hindrances in different areas of life insurance application.

We value our clients the same way we value our business. In order to do this, we provide our staff with high standard of training, specialize skill, advance training, updated rules and regulation on paramedical examination, and the latest information and technology.
